

T-886

ANALOG WALKIE-TALKIE

20W high power penetration
lithium polymer battery
IP67 waterproof / transmission
timeout / scanning / voice selection
power saving function /
low power alarm / scrambling function
busy lock / intelligent squelch /
manual frequency tuning /

Technical Parameters

T-886

Frequency range: 400-480MHz	Antenna impedance: 50 Ω
Rated voltage: DC7.4V (Li-ion lithium battery)	Working mode: Same frequency simplex or cross frequency simplex
Memory channel: 16 channels	Grounding method: negative electrode
Antenna configuration: Enhanced antenna	Body size: 60 * 40 * 120mm (excluding antenna)
Battery capacity: 7500mAh lithium polymer battery	Body weight: 290g

Output power: 20W	Sensitivity:<0.16 V (12dB SINAD)
Modulation method: frequency modulation	Audio power: ⩾ 300mW
Maximum frequency offset: ⩽ ± 5KHz	Receiving current: ⩽ 100mA
Residual radiation: ⩽ -60dB	Silent waiting: 20mA
Emission current: ⩽ 1000mA	Silence sensitivity:<0.2 μ V
Pre emphasis characteristic: 6dB per octave	Intermodulation anti-interference: 50dB

Product accessories

antenna

battery

TYPEC seat charger

Fire Bull Head

Type-C line

Back clip
